Cincinnati, OH 45245

How to Play

Each item up for bid will be displayed for all guests to see. The auctioneer then gives a description, retail value and how many quarters you will need to bid. You place your bid in the container on the table and hold up your numbered paddle. *If you have more than one paddle, you must place a bid for each one.* When all bids are collected, then the auctioneer will draw a numbered chip from the container. If the number on your paddle matches the number on the chip drawn, you win that item. If a matching numbered paddle is not held up, the auctioneer will draw again, until we have a winner. Once we have a winner, all chips will be placed back in the container and go to the next item to be auctioned.
